

## Haas Scholars application 2018

Text for the professional reference form:

Please fill out this form using your professional/institutional email address.

If you are a professional reference, you will fill out this form to address qualities that make the applicant particularly well-suited to the community aspect of the Haas Scholars senior capstone experience (i.e. personal responsibility, follow-through, willingness to collaborate with others, and eagerness to be part of and contribute to an interdisciplinary cohort). The strongest responses will give specific examples of ways you have seen the applicant contribute to a positive group dynamic.

The Haas Scholars Program selects and generously funds twenty high-achieving students, from a broad array of majors, to carry out a capstone project in their final year at Berkeley and in the summer before. The students are called upon to give each other extensive feedback, to help each other grow professionally and to support each other through challenges. Brilliant "lone wolves" can be very disruptive to this dynamic.

Please answer the following questions to help us assess the applicant's potential for being an ideal cohort member.

---

### Questions:

How long and in what capacity have you worked with this applicant?

Please evaluate the applicant's level of professional responsibility and follow-through, and give examples from your work with the applicant.

Please evaluate the applicant's ability to contribute to a positive group dynamic, and give examples from your experience with the applicant.

Please tell us any other information about the applicant that you believe is relevant to our selection process.
